

MICHALINA KAMINSKA

• front-end developer ~ psychologist •

ABOUT ME

I am an experienced psychologist and also a beginner in IT world. My professional experience has allowed me to develop cooperation skills as well as understanding group processes. I am motivated and I'm developing my skills in frontend technologies and UX.

I love traveling and exploring different cuisines.

EDUCATION

~ Master's in Psychology ~
Graduated November 2017,
SWPS in Katowice

~ Master's in Special education ~
Graduated July 2013,
Jagiellonian University in Cracow

EXPERIENCE

August 2020 - present Junior front-end developer

White Label Coders sp.z o. o., Gliwice

- Mainly working with Gatsby with Wordpress like a headless CMS.
- Technology that I'm using the most:: Gatsby, styled-components, GraphQL, Wordpress, Git.
- I'm improving skills in coding themes for Wordpress websites from scratch.

May 2019 - present Self-studying / Freelance working

- A year I decided to change my career path because of my personal interest in technology and design.
- I'm studying frontend technologies and UX/UI (using online courses, preparing my own projects to develop my technical skills).
- In may 2020 designed and coded website for Academy of Fine Arts in Porto for online exhibition for PhD students.
