michalina kamińska

JUNIOR IN IT / PSYCHOLOGIST

CAREER HISTORY

Member in association "Woman in Technology"
2020 – present

- I'm organizing events connected with IT (actually working on webinars about mental hygiene at work, webinars for children "Robocycling" and UX makers online conference).

Self-studying / Freelance working
2019 – present

- A year ago I decided to change my career path because of my personal interest in technology and design. I develop my skills to start working in IT industry.
- I'm studying frontend technologies and UX/UI (using online courses, preparing my own projects to develop my technical skills).
- Now I'm working using Gatsby.js creating website for Academy of Fine Arts in Porto to prepare online exhibition for PhD students.

Psychologist
2014 – 2019

- Until December 2019 I worked as a psychologist and therapist. All my professional experience is related to this position, I cooperated as a small company as well as a dependent person.

ABOUT ME

I am an experienced psychologist and also a beginner in IT world. My professional experience has allowed me to develop cooperation skills as well as understanding group processes. I am motivated and I want to develop my skills in frontend technologies and UX. I love traveling and exploring different cuisines.
